

Want to Work at KJ Electric?

All employees are offered a full benefits package and 401(k). KJ Electric is an equal opportunity employer.

At KJ Electric we are seeking individuals who are looking for more than just a job, but a career in a team environment. It is our goal to be fair and consistent in our employment policies and to strive for mutual respect among our employees. We encourage open communication, team-work and positive attitudes. Through teamwork, all employees contribute to the success of KJ Electric.

• Inside Sales Engineer:

KJ Electric seeks an energetic individual to focus on selling electric motors, drives, controls, and power transmission products. Call customer list to grow your accounts. Learn and understand customer applications to provide them the best products and services. Knowledge of electric motors or drives a plus! Must have good customer interaction and communication skills.

• Servo Motor Repair Technician:

KJ Electric seeks a servo motor repair technician to repair a variety of high-tech electromechanical servo devices. Mechanical, electronic and troubleshooting skills a must. Preferable are candidates with knowledge of a wide range of test equipment such as oscilloscopes & signal generators. Candidate should be good with MS Office & Internet. Must have their own tools.

• Field Services Technician:

KJ Electric seeks a field service technician to help expand the Field Services Division. KJ Electric performs the following field services: Thermography, Laser Alignment, Vibration Analysis, Shaft Voltage Testing, Drive Installation & Start Up, Complete Retrofit Services, Dynamic Balancing, Harmonic Analysis, Energy Audits, Etc. Knowledge in any of these services is a plus!

• Electrical Panel Builder:

KJ Electric has an opening in our UL listed panel shop specializing in fabrication and wiring of custom and OEM control panels. The ideal candidate should have the ability to:

- Read blueprints and schematics to perform the electrical assembly.
- Identify electrical components such as breakers, disconnect switches, starters, relays, timers, overloads, etc
- Drilling and tapping panels.
- Layout of panel conduit, transformers, CTs, relays, and circuit breakers.
- Operate knockout punches, jigsaws, hole saws, etc.
- Wire panels using point to point wiring.
- Able to route, terminate and dress harness neatly.
- Must have hand tools such as screw drivers, wire strippers, crimpers, cutters, etc.

• Outside Sales Engineer:

KJ Electric is seeking an employee with electrical, mechanical and industrial knowledge to call on and visit accounts. Positions available in all locations. Ideal candidate will have good customer interaction skills and product knowledge.
