

THEY MAY BE **MINI** IN **SIZE**, BUT NOT IN **POWER!**

Let **KJ Electric** Supply You With Small Drives
That Can Be Used in **Multiple Applications!!**

TECO-WESTINGHOUSE:

"MA7200 NEMA 4/12"

- Sensorless Vector Control
Meets NEMA 4 Standards
Provides Ultimate Protection
- Ratings Available
From 1-20 HP, 230V & 460V
- Easy to Input
Front Keypad or Front Potentiometer

"FM50 NEMA 4X"

- NEMA 4X
- Input Voltage
115V, 230V, 460V
- Analog Output
1-10 VDC
- Analog Input
0-10 VDC, 0-20mA, 4-20mA
- 230V & 460V, 3 Phase Output

Industry Applications Include:

**Bottling, Chemical Processing,
Food Processing, Waste-Water, Pumping,
Refrigeration, Farming, etc.**

EATON-CUTLER HAMMER:

"M-Max Series Adjustable Frequency AC Drives"

- Small size
- Highest efficiency in class (on avg 30% less wattage loss)
- Temp Controlled Fan
- Numerous Mounting Positions
(180 degree rotation is not permitted)
- Local/Remote Button
- Integrated EMC filter (on most models)
- Side by side mounting
(40C, 1000m, and 4khz)
- On board Macros/Start up Wizard
- Built in Modbus RS-485
- Conformal Coating

FUJI ELECTRIC:

"FRENIC-MINI SERIES"

- Energy Efficient
- Design for Long Lifespan
- Network & Global Compatibility
- Compatible with a wide range
of frequency settings
- Side-By-Side mounting available
- Long-Life Cooling Fan
